Abstract

Talking about cosmeceuticals in Japan, it is concerning with IYAKU-BUGAIHIN at the same time. There are some complicated problems in the background of the IYAKU-BUGAIHIN system. It is a question that the differences between IYAKU-BUGAIHIN and drugs for skin might not be qualified accurately, although the existence of this system has greatly benefited to manufactures. It seems obvious that cosmetics have been improved QOL; there might be no objection that one of the purposes of cosmetics is the pursuit of beauty. Comparing to some cultures, nevertheless, the sense of beauty is not always the same. Besides, beauty is not only looks of outside but also reflex from inside. So, effective points of cosmetics should be examined more from this point of view. Ingredients of cosmetics have been highly developed these days. And due to the adoption of the new regulation, products for individual preparations will be cultivated more from now on.

Key words: cosmeceuticals, IYAKU-BUGAIHIN, QOL, pursuit of beauty, ingredient.
