Preface for “Basic Lecture of Cosmetics for Dermatologists”

Editor-in-Chief Tetsuji HIRAO

Abstract

The aim of this lecture series is to expand dermatologists interested in Japanese Cosmetic Science Society by providing basic scientific knowledge of cosmetics. Articles of this series planned for two years will include various aspects of cosmetic products and their functions, regulations, relations with troubled skin. I hope that this lecture series will be helpful, not only for dermatologists, but also for paramedicals and cosmetic scientists.
