### The Recent Trend of Wave Lotion

Yoshihiro Kanda\*

#### Abstract

Recently, various types of perm-hairstyle were produced, and many people have been interested in performing.

But it is required to produce beautiful curls without hair damages, therefore diagnosis of hair, selection of the type of permanent wave lotion and reasonable perm-treatment are essential.

In this seminar, I describe the regulation and recent trend of quality of permanent wave lotions.

Finally, I mention our new experimental results for permanent wave formulations.
