**Abstract**

The trends concerned with the fashion and cosmetic industry are changing constantly. In general, we need catch up with some trends immediately. On the other hand, considering the current environment surrounding cosmetics regulation in the world, there is a large list of problems to be considered. In particular safety matters are very important for cosmetic companies. We have to respond quicker and move efficiently. Safety issues and Fashion trends are not the same but are intimately related to each other.

**Key words:** trends, fashion, safety.
